

A Message from the President regarding the latest huge earthquake and Tsunami in Japan

Dear Friends,

We would like to extend our sincere condolences to the families who lost loved ones and to those who survived but are facing severe conditions mentally and physically from the gigantic earthquake and tsunami that hit the Tohoku area, in the northern part of Japan.

I am very grateful to inform you that we have received so many messages from all around the world concerning our situation, since this happened. Very fortunately, all of the Daiwa people and their families are fine. Our office and our factory only received minimum damage from the earthquake. We are now back to work with our normal standards.

Thank you, again, for all your support and we will give our best efforts to meet your needs as ever before!

Yasuo Ninomiya
